

PHOTON LINES

"A joint commitment, daily"

Environmental Policy

Photon Lines specialises in the sale and distribution of photonic equipment.

The management and all who work at Photon Lines are committed to the care of the environment and the prevention of pollution.

The organisation ensures that all its activities are carried out in conformance with applicable legislation and other requirements relating to the environment which apply to Photon Lines Ltd.

Photon Lines Ltd seeks to minimise waste, promote recycling, reduce energy consumption, reduce harmful emissions and where possible work with suppliers who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, the organisation has implemented an environmental management system which satisfies the requirements of BS EN ISO14001:2004.

This policy and the obligations and responsibilities required by the environmental management system have been communicated to all employees and persons working on behalf of the organisation. This policy is available to the public on request.

Signed:

Managing Director

Date: January 2014.
